MR. RANDALL’S SPITE HOUSE.

He Doesn’t Want an Avenue Extended to Help Boom a Rival’s Property.

Freeport, L. I., March 5—John J. Randall, a wealthy land owner of this village, has determined that the proposed extension of Lena avenue in a straight westerly course from Long Beach to Bayview avenue, will not be made if he can prevent it and as an obstruction to the project he has commenced the erection of what people here call a “spite” house on his property, directly in front of the street’s present ending at Long Beach avenue.
