15c. a Day
Buys a valuable building lot in the heart of the beautiful and progressive village of
FREEPORT.

Think of it! By saving this small amount you become the owner of Real Estate that in two years’ time will double in value. This village is beyond doubt up to date, with fine schools, churches, stores, clubs; it owns its own electric light plant, its own water works. Has a trolley direct to Brooklyn and New York. Look around and see if there is anything offered that can beat Greenview Terrace

Only five minutes’ walk from station and located right in the heart of these improvements, and we are offering to-day the few lots left at a clearing-up sale, from

$69.00 to $129.00

This exceptional property will be appreciated if seen, and for this reason we advise you to take a trip at our expense and examine it. We go any day this week, also NEXT SUNDAY.

Write at once for particulars and free tickets.
