Big alterations are going on in former Rhodesia, south of the Merrick Road, east of Main street, by Fishel & Hanse, the new owners. All the old shanties are being torn down and moved away and streets are to be cut thru, grounds graded and handsome dwellings built. Contracts have already been given for work on one house, with others soon to follow. We understand that it is the intention of the owners not to sell any vacant lots but to build and sell houses ready for using.
